

Take Her Away

Take her away from it all
Hitch up your wagon and listen to her call
"You'd better stop before you fall"
Take her away from it all

Go take your hearts for a ride
Pick up a roadmap and find someplace to hide
No need to write, don't even call
Take her away from it all

You deserve it, God knows you'd like to work your life away
You've heard it, but did you learn it
A dull boy never plays

Take her away from it all
Hitch up your wagon and listen to her call
"You'd better stop before you fall"
Take her away from it all
Take her away
Take her away
Take her away from it all
