

Which Indiana bank will take you for a ride today?

Indiana National is so involved in the automotive industry, chances are you drive a vehicle we helped put on the road.

Ever since it started, we've helped fuel Indiana's automotive industry with a wide range of financial services.

Our clients include all the major automobile manufacturers, the hundreds of companies who support them, and the franchise, domestic and import, new car dealerships.

For example: Ertel Manufacturing Corp. of Indianapolis produces pistons and valve guides, Switches, Inc., in Logansport provides a full line of electronic components, E-W Mold and Tool

Company, Inc., in Indianapolis makes injection molds for component parts, and Arvin Industries, Inc. in Columbus provides catalytic converters and exhaust emission systems.

Indiana National also supports new car dealerships all over the state with complete financing such as floor plan financing, capital loans, dealership real estate mortgages, and various vehicle financing programs.

From automobile manufacturing to personal car loans, Indiana's automotive industry turns to the bank that knows the road better than any other bank in this part of the country.
